

Apologetics

Matt Chandler

Gabe's Story:

"Defending Christianity is a hard thing to do because science has verifiable facts and Christianity is based on faith."

- There will always be a bit of _____ and _____ in regards to our relationship with God. But saying that does NOT mean we have a _____ faith.
- Science and faith have a lot in common: Miracles:
 - o **1 Corinthians 15: 5-8** – The argument against the resurrection of Jesus from the dead was not an argument against faith, but of _____.
 - o Miracle, by definition is _____ natural causes.
 - o There is no scientific theory out there that can test what can or cannot occur outside of natural causes. There is no test to disprove the miraculous.
 - o God can _____ natural law to do as he wills.

Ashley's Story:

"He was making me feel awful about myself and I felt like no one was there to help me. Even my friends in the class were laughing at me; they weren't standing up to help me."

John 10:10

- The thief comes to _____, _____ and _____.
- Jesus has come that you might have _____ and have it to the full.

"They made fun of Jesus and the apostles, it is not uncommon for us to feel foolish and ill-equipped to share the gospel." –Chandler

Luke 9:5

It is _____ and _____ alone who can save. (God/God)

1 Corinthians 1:18

The message of the cross is _____ to those who are perishing.

Alexandra's Story:

"I just wish he would be as open as he likes to think that he is."

1 Peter 3:1-2 – How to live in a home where some are hostile to Christ: Let your _____ shine.

Daniel 6:10

- Three times a day, Daniel _____.

Isaiah 59:1

- God's arms are NOT too short to _____.
