

Sling Pattern

(Cut from brown felt or leather.)

Instructions: To make a sling, cut out oval shape from either brown felt or leather. Punch holes and tie a 12" (30.5 cm) piece of yarn or string through each hole. To shoot with the sling, put a paper wad in the oval, hold the two ends of the strings, and then whirl it overhead quickly enough to keep the wad in the sling. Release one of the strings to make the paper wad fly towards the target.
